The Company

Tsunami Axis is one of the UK's largest supplier of furniture to the commercial interiors sector. As well as being Herman Miller's largest dealer partner outside of the US, Tsunami works with a wide range of high-profile European manufacturers. Launched in 1999, Tsunami Axis has completed some of the largest furniture projects nationally and internationally. We provide unrivalled support at every level of a project and have offices in London, Edinburgh and Frankfurt.

The Tsunami Axis team has many years of combined experience within the commercial interiors sector. The expertise and skills of the 70-strong team encompass all aspects of design, supply, project management, installation and after sales management.

Job Role

This position is a design role with much more input and responsibility, supporting the Sales Team and Project Management Team to complete the interior installation. As one of the design team you will be participating from the beginning of a project through to completion working alongside various other roles within Tsunami and Flourish. The design services you will be expected to undertake are: space planning designs, managing the incoming and outgoing of drawings to clients/architects, technical drawings and supporting presentational documents.

The role will involve running multiple projects simultaneously and working within tight deadlines. You will need an awareness of furniture and manufacturers Tsunami Axis works alongside and be interested in sourcing and finding new products releases that could be useful for the clients.

Primary Tasks

- Presentation work to include proposal packs, specification packs
- Space planning and installation
- Technical drawings
- Manage and co-ordinate the overall design process from the brief, to the final install, ensuring correct design support is provided throughout
- Visualisation and graphics for client presentations

Knowledge, Skills, Qualifications & Experience:

- Background and experiences within Commercial Office Design beneficial
- CAD experience essential
- Excellent verbal, written and interpersonal communication skills
- Demonstrated high personal performance standards, the desire and ability to continuously learn
- Efficient time management
- Have technical understanding of current space planning regulations for install purposes.
- A high level of passion, energy, enthusiasm and creativity is essential

Software skills:

- AutoCAD – 2D and 3D
- CET Designer
- Sketchup
- Abode Creative Suite, Photoshop
- MS Office – Word, Excel, PowerPoint

Key Strengths:

- Organisational awareness
- Planning and delivery of work
- Attention to detail
- Communicating and working with others
- Continual improvement

Note: this job description is not an exhaustive list of the responsibilities and activities that the job holder may be required to undertake.

How to Apply

Please send your CV and portfolio to Neeta Patel at N.Patel@Tsunami-Axis.com

Health & Safety Responsibilities

Managers and supervisors carry both legal and company responsibilities for ensuring the health and safety of their employees, those under their control and those who might be affected by the work undertaken, i.e. public, visitors and employees of other organisations. This includes briefing individuals working for them and ensuring there is the necessary understanding, competence and application of requirements to work safely and without harming the environment.

Employees are responsible for ensuring they fully understand the health and safety risks involved in their work activities and their responsibility to apply the controls needed to manage those risks to acceptable levels. Similarly where work activities can have an adverse impact upon the environment, and particularly where there are legal requirements, employees are responsible for understanding those impacts and the controls they must ensure are applied.
